

# The Future of Philanthropy and Why Diversity Matters

The IUPUI Lilly Family School of Philanthropy released a new report called *Women Give 2019: Gender and Giving Across Communities of Color*. This report examines the giving patterns, priorities, and attitudes of America's wealthiest households and, in particular, explores the intersection of race, gender and giving. In 2019, The Alford Group celebrates its 20<sup>th</sup> consecutive year as AFP's diversity sponsor and partner. We will speak to the new report and context it with our history and first-hand knowledge/experience on this topic.

Participants can expect to learn:

- The findings from a new body of research exploring race, gender and giving
- Insights into how to further diversity the nonprofit sector and philanthropic donor base

Part of  
Main Street Community  
Foundation's  
Nonprofit Education  
Series.

Wed., July 24, 2019

1:00 - 2:30 p.m.
