SOUTHINGTON Behavioral Health Resource Directory

2nd Edition

Funded by the Bradley H. Barnes & Leila U. Barnes Memorial Trust at Main Street Community Foundation Dear Southington Resident,

Welcome to the second edition of the Southington Behavioral Health Resource Directory, a collaboration between the Bradley H. Barnes & Leila U. Barnes Memorial Trust at Main Street Community Foundation and Wheeler Clinic.

This Directory has a few additions which include local drug collection drop boxes, opioid use and treatment services, online consumer health services and advocacy organizations and support. We encourage residents to explore these resources in the event that a friend, family member or neighbor needs assistance. Feelings of sadness, anxiety, worry, irritability, or sleep problems are common for most people. However, when these feelings become intense, last for a long period of time, or begin to interfere with school, work, and/or relationships, they may be a sign of a mental health challenge. Similar to those who require medication and receive professional help for physical conditions, someone with a mental health challenge/disorder may require medication and/or participation in therapy in order to feel better.

Behavioral health services include outpatient and inpatient care for children, adolescents, and adults. Programs offer confidential assessments, short and long-term counseling, psychotherapy, family therapy, and mental health treatment.

Outpatient mental health services are provided to individuals who have acute or chronic psychiatric disorders but do not require 24-hour care. Outpatient mental health and substance use disorder services are provided in person in an ambulatory care setting such as a mental health center or substance use disorder clinic, hospital outpatient department, or practitioner's office. Inpatient mental health services are 24-hour services delivered in a licensed hospital setting that provide clinical intervention for mental health and/or substance use diagnoses.

This directory consolidates resource information for Southington residents who need assistance with mental health and addiction challenges. This directory is for consumers, families, and those who help them. It is intended to provide information about mental health programs supporting Southington residents. This resource directory will not detail the symptoms of mental illnesses or delve into pharmaceuticals.

Literature is available at the Connecticut Clearinghouse, a statewide library and resource center for information on substance use and mental health disorders, prevention and health promotion, treatment and recovery, wellness and other related topics. Visit <u>www.ctclearinghouse.org</u> for more information or visit the Clearinghouse at 334 Farmington Avenue, Plainville, CT. Materials from their specialized library and resource center are available to Connecticut families, teachers, students, professionals, communities and children. The Southington Behavioral Health Resource Directory can be found electronically on the Connecticut Clearinghouse website at <u>www.ctclearinghouse.org/southingtonmhdirectory</u>.

Behavioral Health Glossary

Behavioral Health Professionals:

Advanced Practice Registered Nurse (APRN): A nurse with post-graduate education in nursing. APRNs are prepared with advanced informative and clinical education, knowledge, skills, and scope of practice in nursing.

Certified Alcohol and Drug Counselor (CADC) – A certified individual that provides alcohol and drug counseling.

Licensed Clinical Social Worker (LCSW) – An individual that holds a Master's degree in social work (MSW) and specializes in clinical practice. They work with clients in order to help them deal with issues involving their mental and emotional health. This could be related to substance abuse, past trauma or mental illness. There are a wide variety of specializations the Licensed Clinical Social Worker can focus on. These include specialties such as: working with mental health issues, substance abuse, public health, school social work, medical social work, marriage counseling or children and family therapy.

Licensed Alcohol and Drug Counselor (LADC) – A licensed individual who helps people suffering from alcohol and substance abuse problems. Counselors help patients overcome addiction and adopt sober lifestyles, often in residential or outpatient rehabilitation programs.

Licensed Marriage and Family Therapist (LMFT) – An individual educated with a Master's or Doctoral degree, trained with a minimum of two (2) years of supervised clinical experience. LMFT's are trained and licensed to independently diagnose and treat mental health and substance abuse problems.

Licensed Professional Counselor (LPC) – Licensed professional counselors (LPCs) are Master's-degreed mental health service providers, trained to work with individuals, families, and groups in treating mental, behavioral, and emotional problems and disorders.

Paraprofessionals – Paraprofessionals work under a trained professional in clinical settings, i.e.: Licensed Social Work Associates (Bachelor level social workers).

Psychiatric Mental Health Nurse Practitioner (PMH-NP) – A registered nurse certified by the Connecticut State Board of Nursing, who is able to independently engage in the following activities:

- "Nurse Psychotherapist" A registered nurse, who practices psychotherapy in a structured relationship with the client
- "Psychiatric Nurse Practitioner" An experienced registered nurse who possesses advanced training and education in the area of diagnosing and treating illness. Nurse practitioners are able to prescribe medication. Psychiatric nurse practitioners specialize in providing psychiatric care to individuals.

Psychiatrist (MD/DO) – A medical doctor who possesses specialized training in the field of psychiatry. Psychiatrists must be licensed physicians in the state in which they practice and must also be certified by the American Board of Psychiatry.

Psychologist (PhD/PsyD) – An individual who possesses a Doctoral degree in psychology. One must be licensed by the Connecticut State Board of Examiners of Psychologists. A psychologist can be a clinical or a counseling psychologist.

Behavioral Health Glossary (cont.)

Behavioral Health Terms:

Case Management – A process which plans, coordinates and implements services required to meet an individual's needs.

Co-occurring Disorders – A person with substance use issues and mental health diagnosis.

Dual Diagnosis Treatment – Treatment for an individual with substance abuse issues as well as a mental health diagnosis.

Evidence Based Practice (EBP) – Preferential use of mental and behavioral health interventions for which systematic empirical research has provided evidence of statistically significant effectiveness as treatments for specific problems.

Family Psychoeducation – Provides education to individuals living with mental illness and their families. The goal is to assist the individual and their family to better understand his/her present illness, avoid relapse and contribute to their own health and wellness on a long-term basis.

In-home Services – Counseling provided in the home by a behavioral health professional.

Intake (Interview) – Occurs when a client first seeks help from a clinician. It's the first interaction that occurs between the client and the clinician.

Intensive Outpatient Program (IOP) – The highest level of outpatient treatment before inpatient care.

Medication Evaluation/ Medical Management – A psychiatrist or nurse practitioner monitors and evaluates a client's medications to ensure that the client is on the proper medications. Medication evaluations can be done at various intervals.

Open Access - Walk-in availability during designated times without an appointment.

Outpatient – Treatment that is provided in the community and not in a hospitalized setting.

Partial Hospitalization Program (PHP) – A short-term day program that offers psychiatric services. PHP is less intrusive and traumatic than inpatient care. Clients are able to return to their homes at the end of the day, while still remaining under the care of mental health professionals on a daily basis.

Peer Support – Individuals or family members of those living with mental illness coming together to provide a self-directed, grassroots association that works to enhance the mental health of other local consumers. Peer support members meet as equals to give each other support on a reciprocal basis.

Psychiatric Evaluation/Assessment – An evaluation performed by a psychiatrist or nurse practitioner. A psychiatric evaluation includes the history of the present illness, current symptoms the individual is experiencing, past history of illness, family history, a review of medications, mental status examinations and a physical examination.

Behavioral Health Glossary (cont.)

Psychiatric Rehabilitation Program (PRP) – A program that provides support and rehabilitation to individuals who suffer from mental illness. PRP focuses on daily living skills through the use of the community environment.

Psychological Testing – Tests which are given to individuals to assess and evaluate information. Psychological tests are administered and interpreted by a psychologist.

Residential Rehabilitation Program (RRP) – Housing for individuals with a chronic mental health diagnosis, who are unable to live independently in the community.

Respite – Temporary shelter for a person in need of short term relief from a crisis they are experiencing or to provide relief to a caregiver.

Sliding Scale – Fees are set according to the client's income (i.e., if the client has no income, the fee may be as low as \$0).

Uninsured – An individual that does not have private insurance, Medicaid or Medicare.

Mental Health Services: Child and Adolescent

Klingberg Family Centers: Outpatient Services

Getting the Right Help for Opioid Dependence or Withdrawal

Opioids are a class of drugs chemically similar to alkaloids found in opium poppies. Historically, they have been used as painkillers, but they also have great potential for misuse. Repeated use of opioids greatly increases the risk of developing an opioid use disorder. The use of illegal opiate drugs such as heroin and the misuse of legally available pain relievers such as oxycodone and hydrocodone can have serious negative health effects.

The State of Connecticut has taken action to help reduce and prevent substance use disorders. If you or someone you know who is considering treatment for opioid dependence or experiencing withdrawal, start here. Professionals are available and recovery is possible.

Connecticut's 24/7 Addiction Treatment Access Line: (800) 563-4086

• A free, confidential, 24/7, 365 days-a-year Access Line, providing information on detox and treatment for prescription opioids or heroin addiction

Connecticut Community for Addiction Recovery (CCAR): (866) 205-9770

• Centralized resource in CT for all things recovery. Whether you are contemplating a life in recovery, are new to recovery or are in long term recovery, CCAR is here to help you to navigate the recovery community, by connecting you with others in recovery and providing access to area support services

Medication Assisted Treatment (MAT)

Providers/Resources: http://www.ctbhp.com/index.html

• Find local methadone/suboxone/vivitrol clinics, partial hospitalization with intensive outpatient and housing, intensive outpatient (IOP), outpatient therapy/treatment, and partial hospitalization (PHP)

SAMHSA's National Helpline: (800) 662-HELP (4357)

• A free, confidential, 24/7, 365 days-a-year treatment referral and information service (in English and Spanish) for people and families facing substance use disorders

SAMSHA's confidential treatment locator: <u>https://findtreatment.samhsa.gov/</u>

• Find reputable treatment facilities near you in a quick, confidential online search

For other resources or information like Naloxone (Narcan) locations, visit <u>www.drugfreect.org</u> or <u>www.ctclearinghouse.org</u>

Al-Anon/Alateen

Al-Anon is a mutual support group of peers who share their experience in applying the Al-Anon principles to problems related to the effects of a problem drinker in their lives. It is not group therapy and is not led by a counselor or therapist; this support network complements and supports professional treatment.

Alateen is a peer support group for teens who are struggling with the effects of someone else's problem drinking. Many Alateen groups meet at the same time and location as an Al-Anon group. Alateen meetings are open only to teenagers.

No advance notification or written referral is necessary to attend an Al-Anon or Alateen meeting. Anyone affected by someone else's drinking is welcome to attend. And, there are no dues or fees. Groups are self-supporting, and usually pass a basket around for a voluntary contribution to pay for rent or Al-Anon literature.

Narcotics Anonymous

Narcotics Anonymous is a nonprofit fellowship or society of men and women for whom drugs had become a major problem. They are recovering addicts who meet regularly to help each other stay clean. This is a program of complete abstinence from all drugs. There is only one requirement for membership, the desire to stop using. They suggest that you keep an open mind and give yourself a break. The program is a set of principles written so simply that we can follow them in our daily lives. The most important thing about them is that they work. They have learned from their group experience that those who keep coming to their meetings regularly stay clean.

CT Region of Narcotics Anonymous Statewide Phone Line: (800) 627-3543; 24 hours per day, 7 days a week www.ctna.org

Narcotics Anonymous: (818) 773-9999 Ext. 771 www.na.org

Overeaters Anonymous

Overeaters Anonymous (OA) offers a program of recovery from compulsive overeating, binge eating and other eating disorders using the Twelve Steps and Twelve Traditions of OA. Worldwide meetings and other tools provide a fellowship of experience, strength and hope where members respect one another's anonymity. OA charges no dues or fees; it is self-supporting through member contributions. OA is not just about weight loss, weight gain, maintenance, obesity or diets. It addresses physical, emotional and spiritual well-being. It is not a religious organization and does not promote any particular diet.

Y12SR – YOGA OF 12-STEP RECOVERY

Y12SR (Yoga of 12-Step Recovery) is a class in which we weave together the ancient wisdom of yoga and the practical tools of 12-Step programs. We recognize that the "issues live in our tissues" and through a group sharing circle followed by an intentional, themed yoga class incorporating asana, breath work and mindfulness we invoke the higher power of our understanding to help us release whatever is held. These classes are all inclusive for all levels, and anyone dealing with their own addictive behaviors of any kind, or affected by those behaviors in others. It will deepen any work that participants may currently be doing or jump start the journey of self-discovery. No one will be turned away for lack of funds. Donation based.

Local Drug Collection Drop Boxes

Many municipal police departments are now participating in the Medication Drop-Box Program. These drop boxes are managed by police departments and are available 24 hours a day / 7 days a week. This is a confidential free service that will help protect our environment and our youth. There is growing concern that medications flushed down the drain endanger the aquatic environment and wildlife. Wastewater treatment plants are not designed to remove all medications from wastewater. Therefore, disposing medication properly will reduce the overall risk of exposure to you, your family and the environment.

Also, unused medications left in medicine cabinets and other areas around the home have become a concern as well. According to the Partnership for a Drug Free America:

- 6 out of 10 teens agree that prescription drugs are easy to get from parents' medicine cabinets.
- 4 out of 10 teens think that prescription drugs are safer to use than illegal drugs.

Municipal police departments across the state are installing medication drop-boxes in their facilities to make it easier for their residents to remove unwanted or expired medications from their homes at no cost. The medication drop-boxes are usually mounted on the lobby floor or wall and are accessible 24/7 in most police departments.

Transportation Services

CT Transit – CT FASTRAK

The CTfastrak system provides direct service to and from Waterbury, Cheshire, Southington, Bristol, Plainville, New Britain, Newington, West Hartford, Hartford and Manchester with routes that take advantage of the bus-only CTfastrak roadway. The CTfastrak system provides a one-seat, no-transfer ride to many major regional employment, shopping and healthcare destinations as well as connections to the New Haven Line-Waterbury branch rail in Waterbury and Amtrak service in Hartford. Most CTfastrak bus routes operate Weekdays from 5:00am to Midnight; Saturdays from 6:00am to Midnight and Sundays and major holidays from 8:00am to 8:00pm. Visit www.cttransit.com or (860) 522-8101.

Department of Mental Health and Addiction Services

The Department of Mental Health and Addiction Services may be able to transport you to and from detoxification and substance abuse treatment programs including recovery houses, shelters, sober houses, hospitals, VA/VET Centers, and in some cases alternative incarceration centers (AIC). This service does not include outpatient services. However, if you are seeking treatment for a substance abuse and need transportation to a treatment facility or are leaving residential treatment and need transportation to community services contact the Access Line at (800) 563-4086, anytime. There is no eligibility associated with this transportation service.

DIAL-A-RIDE

DIAL-A-RIDE bus provides transportation at no charge for <u>Southington residents aged 55 & over and for</u> <u>people with disabilities</u>. Their primary objective is to provide the service that you need in a timely and reasonable manner. Call (860) 621-3014 to make your appointment.

Medical Appointments: Dial-A-Ride requests seventy-two hours (72) notification be given for all medical appointments, especially for out-of-town appointments. You may schedule up to a month in advance. They cannot accommodate same day requests. Please schedule in-town medical appointments between 9:00am-11:00am and 12:30pm-2:30pm. Monday through Friday rides are provided to & from Calendar House for lunch, activities, programs & appointments.

Out-of-town medical transportation will be provided as follows:

<u>Mondays & Wednesdays</u>: Plainville, New Britain & Meriden (appointments between 9:30am-1:00pm). <u>Tuesdays & Thursdays</u>: Plainville, Bristol & Farmington (appointments between 9:30am-1:00pm). <u>Fridays</u>: Please call for the out-of-town schedule.

Senior Transportation Services Inc.

Senior Transportation Services Inc.'s mission is to help adults ages 55 and over live independently in their own homes by providing safe, reliable and economical out of town medical transportation. It serves the following communities: Berlin, Meriden, New Britain, Southington and Wallingford. Clients must be fully ambulatory, complete an application and a 10 day notice is required for all rides. For more information, call (860) 224-7117 or email <u>seniortransportationserives@yahoo.com</u>.

Turning Point Connecticut	Developed by young people in Connecticut who are in recovery from mental health and substance use issues. They've lived through the ups and downs of self-harm, drugs and alcohol, and the struggle to find help. Their goal is to provide information and support to help you choose your path so that you don't have to struggle the way they did.	(800) 273-8255	turningpointct.org/

Online Consumer Health Resources

Defining medical words and verifying spellings

Acknowledgements

The Bradley H. Barnes & Leila U. Barnes Memorial Trust at Main Street Community Foundation awarded Wheeler Clinic, the Southington Health Outreach Project grant to enhance access to mental health and substance abuse recovery services. The purpose of the Project is to assist Southington residents and families in recognizing the signs and symptoms of mental health and substance use challenges, navigating available resources and reducing barriers. The ultimate goal is to create a healthier community and to reduce the stigma and discrimination that is associated with mental health.

The Southington Behavioral Health Resource Directory was developed as a collaboration among community stakeholders to help residents navigate available resources. Many thanks to following organizations with their support of the Southington Health Outreach Project:

Apple Valley Behavioral Health Bradley H. Barnes & Leila U. Barnes Memorial Trust at Main Street Community Foundation Bread for Life **Calendar House Senior Center Catholic Charities Commission on Disabilities Community Mental Health Affiliates DePaolo Family Foundation** Early Childhood Collaborative of Southington Hartford HealthCare Lisa Inc.
